Roomminister

"The Software for Your Better Meetings"

Cloud-based Solution

Our central portal in the cloud allows you to manage and monitor your meeting rooms wherever you are, on any device, 24/7.

Collaboration

The software helps coordinate people, spaces, and things in your office efficiently.

Seamless Integration

Syncs instantly with Microsoft Outlook™ and Google™ Calendars.

Smart Workplace

Make it easier for everyone to manage their workday throughout the office from meeting rooms to workstations, and all the routes in between.

Simplify the Meeting Room Booking Experience

### Improve every corner of the workplace.

It gives everyone visibility of room availability and the right tools to make and manage their room bookings: right at the room, in Microsoft Outlook™ or Google Calendars™, and on their mobile phones.

If you already use room calendars in Microsoft Outlook or Google Calendars, everyone stays in a familiar environment. If not, you'll find it easy to set up room calendars and get started with Roomminister.™
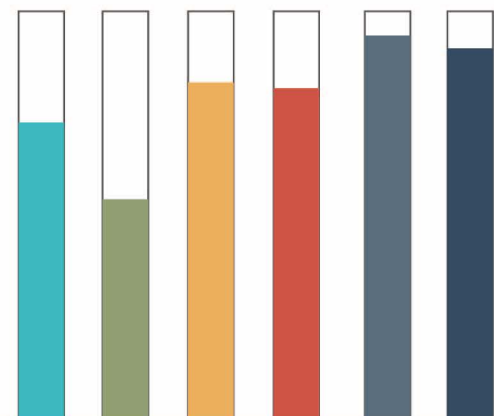

Roomminister™ currently works with your existing calendars: Office 365   Exchange   G Suite

"Organize & reserve your meeting rooms better"

Roomminister™ brings order to the process of booking a meeting room. It allows you to book on the spot, right at the meeting room door, or remotely on your computer or smart device. It shows meeting information, the meetings coming up and eliminates meeting interruptions by clearly signaling the room is occupied and until when.

Software Features A Comprehensive Meeting Room Overview.

Roomminister is the cloud-based solution for every office space. The software bridges the gap between digital calendars and the physical workplace. You can have meetings without any hassle with a meeting room manager.

It also interconnects with collaboration tools like Cisco Spark, Google and Workplace by Facebook, to help companies, associations and other groups systematically connect people one-on-one for greater collaboration, innovation and knowledge sharing.

Sync with O365, ExchangeTM, and GoogleTM Calendars

Works with your existing Company Calendar.

Roomminister is the solution for every office space. The software bridges the gap between digital calendars and the physical workplace. You can have meetings without any hassle with a meeting room manager.

IOS/Android

Comes with Native Mobile Applications.

Roomminister is the solution for every office space. The software bridges the gap between digital calendars and the physical workplace. You can have meetings without any hassle with a meeting room manager.

Meeting Room Service Satisfaction Survey

Tell us What needs to be improved.

Roomminister™ ensures excellent service deliverable "before / during / after" meeting by our service satisfaction survey. The reports definitely show you what needs to be improved.

Collaboration

Improving your team collaboration.

Roomminister™ makes work more intuitive with easy-to-use collaboration technology. The solution improves collaboration with technology that empowers people to engage and innovate anywhere, on any device.

Actionable Analytics for a more productive workplace.

Workplace Insights that Guide the Evolution of your Office.

Roomminister™ helps companies use their workspaces more efficiently and make decisions based on actual data, not guesses.

- Detailed usage analytics for every meeting room
- Understand how the office meets with busiest times and other trends
- Solve small issues, prevent big problems
- Guide employees to the right spaces all day, everyday

Improve Air Quality in your Meeting Room.

Roomminister cares for your health. The carbon dioxide trapped in your meeting room is making you think more slowly. Also, poor ventilation may be affecting thinking skills to a greater degree than previously thought. Thanks to the smart sensor that collaborates with our system on cloud to make your environment a better place.

Make the Most of your Staff ID Card.

Roomminister allows staff to conveniently check-in and check-out their meetings by simply tapping your staff ID card before entering and leaving the room. Again, no passcode is required.
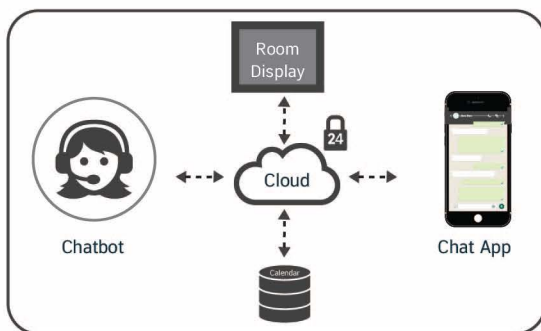

Enable Touchless Check-in.

Roomminister enables automatic check-ins and real-time occupancy detection functions in the meeting rooms or even the seminar rooms by placing Bluetooth iBeacon sensors and connecting to our system.

Robotic Process Automation (RPA)

Roomminister provides a virtual assistant to help manage your meeting and keep you on schedule. The software does the following tasks:

- Book a meeting room
- Remind your meetings
- Collaborate with colleagues

Add Extra Comfort by Ordering Snack & Beverage while Meeting

Roomminister has a catering module, which automatically responds to any snack and beverage order in a meeting. It instantly informs your caterers, at the same time, measures their service level agreements (SLAs) in order to ensure the service excellence.
